HOW 2 BUY COLLECTIBLES

Now that you have received bLOCKcoin, you
can also send it!

If you wish to use bLOCKcoin to purchase
official bLOCKcoin collectibles, you will have
to visit a participating store to do so.

Be careful with how you spend it!

Each transaction you make costs a small
amount of Ethereum (ETH) which is known as
GAS. GAS is what is used to pay cryptocur-
rency miners who are operating the block-
chain network.

You have been given a small amount of ETH
with your bLC purchase so that you can make
transactions around the town of Lockport if
you are so inclined.

This manual will walk you through how to
send bLOCKcoin to your friends or participat-
ing vendors

HAVE FUN!
